Claims 1-8, 9, 15, 16, 18-25 and 27 are present in the above-captioned application and have been subjected to a species election under 35 U.S.C. § 121. Specifically, the Official Action avers that the following patentably distinct species of the claimed invention are present in the claims:

Species A, Readable on Figures 1-7;

Species B, Readable on Figures 8 and 9; and

Species C, Readable on Figure 10.

It is the Examiner's position that the species listed as Species A, B and C are patentably distinct from each other.

In response to the Examiner's requirement for species election, Applicants elect to prosecute the subject matter of Species A, readable on claims 18-22, 25 and 27. However, Applicants reserve the right under 35 U.S.C. § 121 to file one or more divisional applications directed to the non-elected subject matter in this application.

In view of the foregoing, an examination on the merits of the elected claims, at an early date, is earnestly solicited.

Respectfully submitted,

/Thomas Spinelli/
